MedIT-HuB at a Glance

BUILDING CAPACITIES IN DIGITAL HEALTH
INNOVATION THROUGH EASTERN-
EUROPEAN COLLABORATION

Essence of the project

The essence of the MedIT-HuB project is not simply to develop a training programme, but to build an international MedTech education and innovation ecosystem that connects universities, industry partners, and conformity assessment organisations. The project aims to establish a modern, practice-oriented educational programme focused on Medical IT, artificial intelligence, cybersecurity, and European regulatory frameworks.

Consortium Roles and Responsibilities

TAM CERT Magyarország Vizsgáló és Tanúsító Kft. | Budapest, Hungary

Project Coordination & Regulatory Expertise

Project coordinator responsible for project management, quality assurance, dissemination, and regulatory compliance. Provides expertise in GDPR, AI Act, MDR, ISO 42001, cybersecurity, conformity assessment, certification, and industry collaboration.

EDU PORT | Non-governmental Organisation | Subotica, Serbia

Educational Methodology & Curriculum Design

Leads the development of the educational methodology and curriculum structure for the Blended Intensive Programme (BIP), including blended learning approaches, digital teaching methods, assessment strategies, and instructor training.

Sapientia University | Cluj-Napoca, Romania

Academic Content & Pilot Implementation

Responsible for developing the academic content in Medical IT, bioinformatics, and artificial intelligence, delivering the pilot programme, engaging students, evaluating learning outcomes, and ensuring academic quality and sustainability.

Key Project Outputs

MedTech Solutions Award

Student Innovation Challenge

Students develop innovative solutions to real-world healthcare and MedTech challenges.

Best Practice Database

A collection of **10+ industry case studies** showcasing successful MedTech solutions and practical applications.

MedTech Innovation Hub

A collaborative platform bringing together:

- Partner Network
- Expert Community
- Knowledge Database
- Industry Connections

Industry Networking Events

At least 3 international events connecting academia, industry, and healthcare professionals to foster collaboration and knowledge exchange.

MedTech Blended Intensive Programme (BIP)

A **5 ECTS**, modular blended learning programme combining online and onsite education, covering:

- Medical IT
- Artificial Intelligence
- Bioinformatics
- Cybersecurity
- EU Regulatory Compliance

Comprehensive Learning Package

A complete set of educational resources, including:

- Modular course materials
- Lectures & teaching resources
- Practical exercises & case studies
- Assessment framework
- Instructor's guide
